THIS IS UNEVALUATED INFORMATION. SOURCE GRADINGS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

- a. Annex "A" is the planned second quarter 1960, total planned 1960 and actual first half of 1960 production for VVB's of the East German chemical industry.
 - b. Annex "B" is the planned second quarter 1960, total planned 1960 and actual first half of 1960 gross production of selected chemical plants.
 - c. Annex "C" is the planned second quarter 1960 and total planned 1960 and actual first half of 1960 gross production by selected chemical plants of the Berlin district.
 - d. Annex "D" is the planned second quarter 1960 and total planned 1960 and actual first half of 1960 production of selected East German chemical products.
2. The first half of 1960 State Plan for chemical section was realized by 98.7 percent. However, with an authorized plan reduction for VVB Mineralöle und Organische Grundstoffe, the modification of planned prices for certain types of gasoline, assortments of diesel fuels and gasified fuels (Vergaserkraftstoff), the gross production plan for first half of 1960 was realized by 100.7 percent. The absolute growth rate for the first half of 1960 was 8.9 percent higher than for the same period in 1959.

3. At the end of first half of 1960 not all of the VVB's had realized the plan. The VVB Chemiefaser und Textilindustrie was 10,000,000 DME and the VVB Allgemeine Chemie was 16,000,000 DME below the plan. The failure to realize the plan by the two VVB's was caused by difficulties in the supply of materials.
4. Shortage of materials also prevented the VVB Lacke und Farben from achieving its second quarter goal
